

Master Painter Professional

Rollers cover large areas quickly for professional looking results. 8hU produces rollers that are fabricated to meet the standards of every painter and are manufactured under strict quality control procedures. A final visual inspection of finished roller covers checks for lint, correct bevel and overall appearance.

Available in different quality levels for the professional and do-it-yourselfer, as well as nap lengths—smooth to rough—for painting a variety of surfaces.

Master Painter Roller Covers Make Painting Easy

Provide professional one coat results indoors and out. Manufactured with the finest quality blended fibers for maximum paint pick-up and release with all quality paints. Assorted nap lengths for painting smooth to rough or textured surfaces.

Master Painter Premium Roller Covers

Master Painter Professional Roller Covers: For all-purpose painting with great results.
